Night Time Unit

This week we're beginning our nighttime unit. Our house center will slowly be turned into a nighttime center—complete with pine trees, a tent, and lots of nocturnal animals. Be sure to stop by and check out our night time center

Show and Tell

This week your child should bring to school something that deals with nighttime. Show and tell is a great way for children to stimulate and reinforce expressive language. Let your child practice what he/she will say in front of you before coming to class.

Letter Study

This week, kindergarten is focusing on listening for the differences in sounds at the beginning of words. First grade is reviewing beginning consonant sounds and beginning to spell 3-4 letter words with the short sound of the vowel a.

KG/First Grade Activities

Attached you will find a list of the activities that we "hope" to accomplish this week. These can also be on the K/1 page of our website:
<http://www.sfasonline.org/0-k.htm>

Math

This week we'll continue working at copying, creating, and extending patterns. We'll use lots of manipulatives in our classroom to create AB and AABB patterns. First grade will also continue working on addition sums to 10

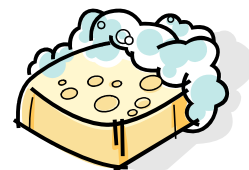

Box Tops

Our school participates in Box Tops for Education. We collect them all year long! This Friday is our first turn in date. Please send to school any "Box Tops for Education" you've saved. Thanks!

Soap

This week we'll be working on a group sensorial project by working together to make "clean mud." If you haven't sent in a bar of soap yet, please do so as soon as possible. Thanks!

Have a great week!

Mr. Robinson
